

Baking 101 Video Script – Carnation® Famous Fudge

Carnation Famous Fudge is a wonderful treat, whether you are making it as a gift or you eat it all yourself. As easy as this recipe is, you can do both! I'm going to make some as a housewarming gift for a friend.

Our first step towards delicious fudge is to line an eight-inch baking pan with foil or you may use a disposable pan.

Put the sugar, salt, Carnation Evaporated Milk, butter and salt in a saucepan and bring it to a boil.

Then continue boiling and stirring for 4 to 5 minutes and remove from the heat.

Add in marshmallows, Nestlé Toll House Morsels, nuts and vanilla extract and stir until it all melts.

Quickly pour the mixture into the pan and refrigerate for two hours.

Take it out of the pan, remove the foil and cut it into squares.

Now it's time for the big decision. Do you give some away or keep it all for yourself?

I'm keeping it. I'll make another batch for my friend.
