HOMEMADE PUMPKIN SLIME

Make some homemade slime that looks and smells like pumpkin.

It takes a real mad scientist to make this spooky slime. Equal parts messy and fun, turn your kitchen into a laboratory for the night and start an experiment! This slime is awesome to play with, but do not eat it! It's fun for the whole family, but adult supervision is recommended.

YOU WILL NEED

1/2 Cup of Orange Glitter
Glue

1/2 Cup of Water

1-2 TBSP of Saline Solution

1/4- 1/2 TSP of Baking
Soda

Pumpkin Essential Oil

Pumpkin Seeds (optional)

EQUIPMENT

MEASURING SPOONS + CUPS

SPOON

BOWL

MIX IT UP

In a bowl, mix water and glue
together with a spoon.

STIR, STIR, STIR

Add Baking Soda and stir well.

MMM, PUMPKIN!

Add pumpkin essential oil as
desired for a pumpkin scent.

A LITTLE GOES A LONG WAY

Add saline solution, starting
with just one tablespoon.

GET SLIMED

Mix well until slime forms
and pulls away from the sides
of the bowl.

WORK WITH IT

Squirt a bit of saline solution
onto your hands and pick up
slime. Continue to knead and
play with slime until desired
consistency is achieved.

MAKE IT SPOOKY

Knead in pumpkin seeds if
you'd like the slime to have
more texture or appear like
pumpkin guts.

TIP: Make sure to pull and
stretch your slime gently as it
can both snap apart like an old
rubber band or stretch 8 feet
long like taffy depending on
how hard you pull!

FYI

Pumpkin essential oil
is optional but highly
recommended.
